

Sands-Constellation Center for Critical Care Oncology and Medical/Surgical Unit

FLOOR 6

The sixth floor provides for the expansion of the Lipson Cancer Institute's footprint at RGH through a dedicated unit for cancer patients. In particular, it allows for growth in our hematologic cancer care as well as the development of future treatment programs.

- A total of 36 private patient rooms offer much-needed acute care facilities in a modernized, protective environment.
- The patient rooms are large enough to provide patient, family and caregiver "zones," enhancing the quality of care and comfort.
- Nurse support is extensive, with central stations as well as work stations or "caregiver alcoves" overlooking each room.

See reverse side for named gift opportunities. >>

Gift Opportunities

Large Spaces

	Minimum Gift Level
Patient Floor	\$2,000,000
Oncology Unit	\$1,000,000
Medical/Surgical Unit	\$1,000,000
