

Sands-Constellation Center for Critical Care Surgical Center

FLOOR 2

The second floor's new state-of-the-art Surgical Center provides a better-equipped and more flexible system to handle interdisciplinary procedures and address evolving patient needs.

- The Operating Suite consists of 20 operating rooms designed for various procedures, including orthopaedic, vascular, spine, neurological and gynecological, among others. Three additional shelled ORs allow for the future expansion of services.
- An adjacent Post-Anesthesia Care Unit (PACU) includes 28 private patient recovery rooms with extensive nurse support.

See reverse side for named gift opportunities. >>
